Brand Ad

A young child with curly hair is jumping rope in a modern, brightly lit bedroom. The room features a large, light-colored wooden desk and shelving unit with teal accents. The desk holds books, a lamp, and other items. A bed with a colorful, abstract patterned blanket is visible in the foreground. The child is wearing a blue denim dress and is captured mid-jump, holding a black jump rope. The text "You hear noise. we hear a song." is written on the wall in a cursive font. The Tapti Kids logo is in the bottom right corner.

*You hear noise.
we hear a song.*

Say Goodbye to Your Old Mac and Hello to Windows 11!

Are you a MAC user considering shifting to a new device, but not sure which one to choose? Look no further than Windows 11!

With Windows 11, you'll experience a whole new level of productivity and creativity. Here's why:

More Affordable

Windows 11 devices are typically more affordable than Mac devices due to low cost of ownership faster support issues resolve and resources readily available at competitive prices worldwide. giving you more for your buck. Windows has a low TCO.

More Compatibility

99.7% of applications are compatible with Windows 11 devices and can run thousands of full-version apps compared to MAC.

Better Performance

Faster processing, intuitive multitasking intelligent experiences including multi-desktops, use of touchscreens or pens, exceptional long batter life and ease of use. And chip-to-cloud security protection across hardware, OS, identity, privacy and cloud.

More Flexibility

Multiple devices for every scenario so you can choose from the broadest of OEM device collections to best suit your needs and budget. Easy to plug in detachable keyboards, mouse, pens and other input or output devices with your machine.

Don't settle for less when you can have the most secure, affordable, and powerful Windows 11 a device that offers more compatibility, flexibility and choice. Upgrade to Windows 11 today and experience the difference between a new level of productivity and collaboration for yourself.

Edge Computing
Supporting your Digital Transformation in Covid-19 Crisis

With an outbreak of Covid -19, Schneider Electric is continuously working to ensure that its customers & partners expectations are met.

Schneider Electric Edge Computing is playing a critical role in improving the efficiency and business performance by remotely managing the facilities at this time.

Schneider Electric for Edge Computing Environments

- Remote Management & Services
- Simplified design and deployment of standardized solutions supported globally by Schneider Electric
- Centralized physical infrastructure management across all IT environments
- Prevention of downtime from unwanted intrusion and human error in physical IT environments
- Challenges such as Latency, security, monitoring & governance being addressed

Edge Computing the Digital Evolution

Edge computing is a main avenue towards digital evolution in an IT hybrid environment. It takes data acquisition, control functions, storage of high bandwidth content and applications closer to the end user. Edge computing has its influential role in IoT innovation which brings high visibility in anything that is customer centric.

For the data centre solutions, Schneider Electric provide Eco Structure Solutions to meet the challenges, this leads to the greater dependence on cloud-based applications to rethink the level of redundancy at the edge.

Edge computing has the beneficial features of standardized and rapid deployments at the edge of healthcare, finance, education and retail industries.

Please fill out and submit the form to access the Edge Computing whitepaper.

I'd like to receive news and commercial info from Schneider Electric and its affiliates via electronic communication means such as email. For more details, please read our [Privacy Policy](#) in the footer below.

A TALE OF TWO EXCHANGES LISTING IRON ORE FUTURES

Exchanges play an important role in price formation and risk management. Take a peek into the two iron ore exchanges, SGX and DCE.

As the second-biggest commodity market in the world after oil, iron ore draws even more attention from traders and speculators. The Singapore Exchange (SGX) and the Dalian Commodity Exchange (DCE) have long stood out in iron ore derivatives trading. Both have different strategic approaches, which are also remarkably divergent.

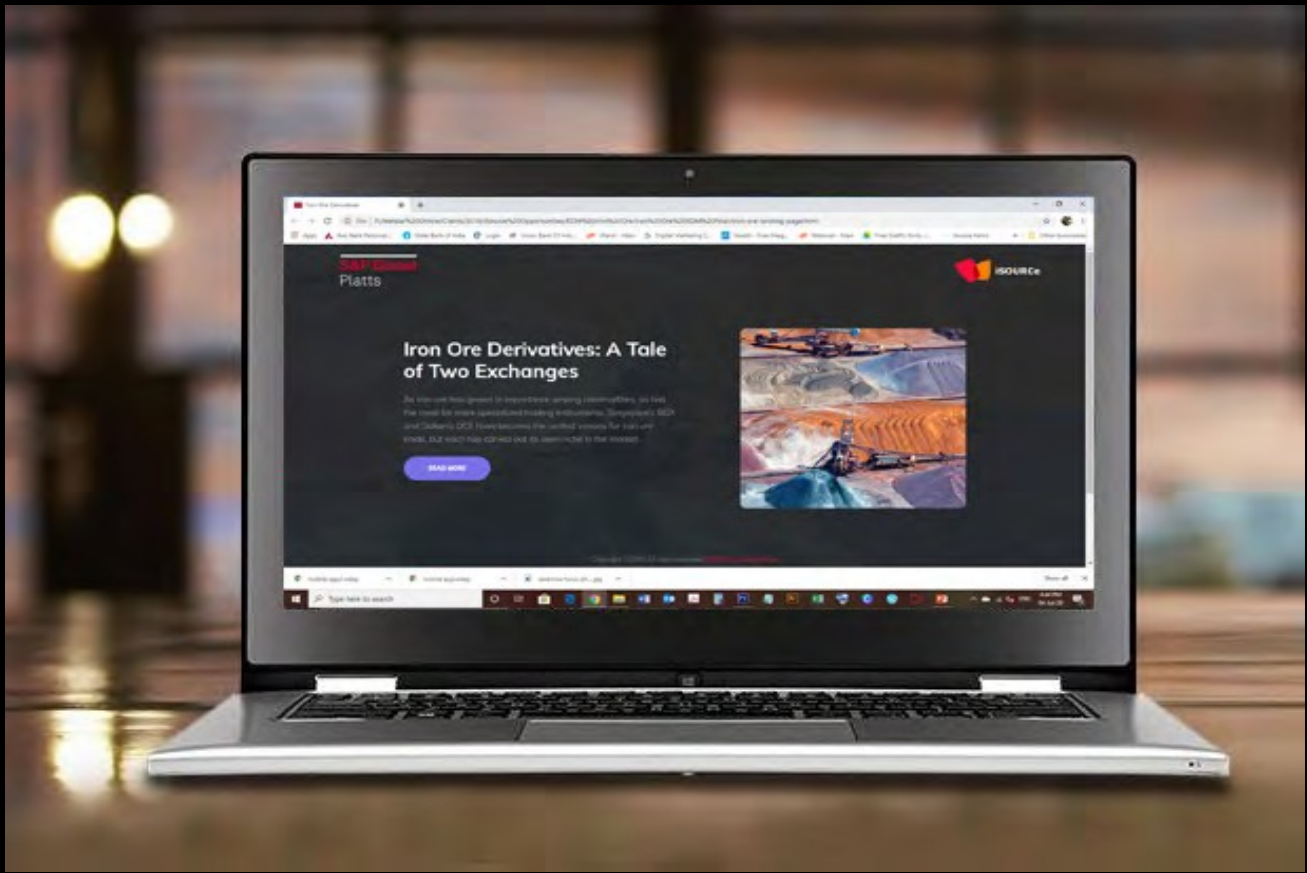

Learn more about the two exchanges.
